

Managing Disease in Organic Vegetable Crops

Resource list

Beth Kazmar, Tipi Produce

12/18/18 Practical Farmers of Iowa webinar

Tables of disease resistant varieties by crop

Cornell University

Vegetable MD Online

<http://vegetablemdonline.ppath.cornell.edu/Tables/TableList.htm>

Resources for learning to recognize diseases

There are many on-line resources.

"Diseases and Pests of Vegetable Crops in Canada", Table of Contents and downloadable PDF at

<https://phytopath.ca/publications/diseases-of-vegetable-crops-in-canada/>

Labs to submit plant disease samples

Iowa: Plant and Insect Diagnostic Lab, \$20 for IA residents,

<https://hortnews.extension.iastate.edu/pidc/contact>

Wisconsin: Plant Disease Diagnostic Clinic, \$20+/sample, <https://pddc.wisc.edu>

Wisconsin: general sample collection advice (<https://pddc.wisc.edu/general-sample-collection-2/>)

Unusual samples: <https://pddc.wisc.edu/special-sample-collection/>

Other states have diagnostic labs too. It's best to use the lab for your state

Fogger to disinfect seedling trays
